succinct with a brace of original documents following each chapter christopher j olsen s the american civil war is the ideal introduction to american history s most famous and infamous chapter covering events from 1850 and the mounting political pressures to split the union into opposing sections through the four years of bloodshed and waning confederate fortunes to lincoln s assassination and the advent of reconstruction the american civil war covers the entire sectional conflict and at every juncture emphasizes the decisions and circumstances large and small that determined the course of events

covers the essential factors which shaped the battles and ultimately determined the outcome of the civil war

although over one hundred fifty years have passed since the start of the american civil war that

titanic conflict continues to matter the forces unleashed by that war were immensely destructive because of the significant issues involved the existence of the union the end of slavery and the very future of the nation the war remains our most contentious and our bloodiest with over six hundred thousand killed in the course of the four year struggle most civil wars do not spring up overnight and the american civil war was no exception the seeds of the conflict were sown in the earliest days of the republic's founding primarily over the existence of slavery and the slave trade although no conflict can begin without the conscious decisions of those engaged in the debates at that moment in the end there was simply no way to paper over the division of the country into two camps one that was dominated by slavery and the other that sought first to limit its spread and then to abolish it our nation was indeed half slave and half free and that could not stand regardless of the factors tearing the nation asunder the soldiers on each side of the struggle went to war for personal reasons looking for adventure being caught up in the passions and emotions of their peers believing in the union favoring states rights or even justifying the simple schoolyard dynamic of being convinced that they were worth three of the soldiers on the other side nor can we overlook the factor that some went to war to prove their manhood this has been and continues to be a key dynamic in understanding combat and the profession of arms soldiers join for many reasons but often stay in the fight because of their comrades and because they do not want to seem like cowards whatever the reasons the struggle was long and costly and only culminated with the conquest of the rebellious confederacy the preservation of the union and the end of slavery these campaign pamphlets on the american civil war prepared in commemoration of our national sacrifices seek to remember that war and honor those in the united states army who died to preserve the union and free the slaves as well as to tell the story of those american soldiers who fought for the confederacy despite the inherently flawed nature of their cause the civil war was our greatest struggle and continues to deserve our deep study and contemplation

americans have long been fascinated by the civil war marveling at the size of the battles the leadership of the generals and the courage of the soldiers since the war's start over 150 years ago the battles have been subjected to endless debate among historians and the generals themselves the civil war was the deadliest conflict in american history and had the two sides realized it would take 4 years and inflict over a million casualties it might not have been fought since it did however historians and history buffs alike have been studying and analyzing the biggest battles ever since the secession of the south was one of the seminal events in american history but it also remains one of the most controversial the election of abraham lincoln was the impetus for secession but that was merely one of many events that led up to the formation of the confederacy and the start of the civil war on december 20 a little more than a month after lincoln had been elected the 16th president a convention met in charleston and passed the first ordinance of secession by one of the united states declaring we the people of the state of south

carolina in convention assembled do declare and ordain that the union now subsisting between south carolina and other states under the name of the united states of america is hereby dissolved in january 1861 mississippi florida alabama georgia louisiana and kansas followed south carolina's lead and the confederate states of america was formed on february 4 in montgomery alabama with former secretary of war jefferson davis inaugurated as its president a few weeks later texas joined the confederacy's hope of being let go in peace ended at 4:30 a.m. on the morning of april 12, 1861, when confederate brigadier general p.g.t. beauregard ordered the first shots to be fired at the federal garrison defending fort sumter in the charleston harbor effectively igniting the civil war for nearly 36 hours beauregard's confederates unleashed a general bombardment from 43 guns and mortars positioned at various points across the harbor unable to effectively reply or defend themselves major robert anderson raised the white flag early in the afternoon of april 13 bringing the first battle of the civil war to a close no casualties were suffered on either side during the dueling bombardments across charleston harbor but ironically two u.s. army soldiers were killed by an accidental explosion during the surrender ceremonies after fort sumter the lincoln administration pushed for a quick invasion of virginia with the intent of defeating confederate forces and marching toward the confederate capitol of richmond lincoln pressed irvin mcdowell to push forward despite the fact that mcdowell knew his troops were inexperienced and unready pressure from the washington politicians forced him to launch a premature offensive against confederate forces in northern virginia

referring to the war that was raging across parts of the american landscape abraham lincoln told congress in 1862 we shall nobly save or meanly lose the last best hope on earth lincoln recognized what was at stake in the american civil war not only freedom for 3.5 million slaves but also survival of self government in the last place on earth where it could have the opportunity of developing freely noted historian steven e. woodworth tells the story of what many regard as the defining event in united states history while covering all theaters of war he emphasizes the importance of action in the region between the appalachians and the mississippi river in determining its outcome woodworth argues that the civil war had a distinct purpose that was understood by most of its participants it was primarily a conflict over the issue of slavery the soldiers who filled the ranks of the armies on both sides knew what they were fighting for the outcome of the war after its beginnings at fort sumter to the confederate surrender four years later was the result of the actions and decisions made by those soldiers and millions of other americans written in clear and compelling fashion this great struggle is their story and ours

in all the vast collection of books on the american civil war there is no book like this one says bruce catton never before has such a stunning body of facts dealing with the war been gathered together in one place and presented in a coherent useful day by day narrative and never before have statistics revealed human suffering of such heroic and tragic magnitude the text begins in november 1860 and ends with the conclusion of hostilities in may 1865 and the start of

reconstruction it is designed to furnish the reader not only with information but to tell a story here in addition to the momentous events that are a familiar part of our history the daily entries recount innumerable lesser military actions as well as some of the other activities and thoughts of men great and unknown engaged in america s most costly war may 5 1864 a private in the army of northern virginia writes at the beginning of the battle of the wilderness it is a beautiful spring day on which all this bloody work is being done may 6 1864 gen lee rides among his men and is shouted to the rear by his protective troops april 30 1864 joe david five year old son of the confederate president dies after a fall from the high veranda of the white house in richmond april 14 1865 president lincoln s busy day includes a cabinet meeting where he tells of his recurring dream of a ship moving with great rapidity toward a dark and indefinite shore that night mr lincoln attends a performance of a trifling comedy at ford s theatre our american cousin

pulitzer prize finalist winner of the frederick douglass book prize winner of the merle curti award mccurry strips the confederacy of myth and romance to reveal its doomed essence dedicated to the proposition that men were not created equal the confederacy had to fight a two front war not only against union armies but also slaves and poor white women who rose in revolt across the south richly detailed and lucidly told confederate reckoning is a fresh bold take on the civil war that every student of the conflict should read tony horwitz author of confederates in the attic mccurry challenges us to expand our definition of politics to encompass not simply government but the entire public sphere the struggle for southern independence she shows opened the door for the mobilization of two groups previously outside the political nation white women of the nonslaveholding class and slaves confederate reckoning offers a powerful new paradigm for understanding events on the confederate home front eric foner the nation perhaps the highest praise one can offer mccurry s work is to say that once we look through her eyes it will become almost impossible to believe that we ever saw or thought otherwise at the outset of the book mccurry insists that she is not going to ask or answer the timeworn question of why the south lost the civil war yet in her vivid and richly textured portrait of what she calls the confederacy s undoing she has in fact accomplished exactly that drew gilpin faust new republic a brilliant eye opening account of how southern white women and black slaves fatally undermined the confederacy from within edward bonekemper civil war news the story of the confederate states of america the proslavery antidemocratic nation created by white southern slaveholders to protect their property has been told many times in heroic and martial narratives now however stephanie mccurry tells a very different tale of the confederate experience when the grandiosity of southerners national ambitions met the harsh realities of wartime crises unintended consequences ensued although southern statesmen and generals had built the most powerful slave regime in the western world they had excluded the majority of their own people white women and slaves and thereby sowed the seeds of their demise wartime scarcity of food labor and soldiers tested the confederate vision at every point and created domestic crises to match

those found on the battlefields women and slaves became critical political actors as they contested government enlistment and tax and welfare policies and struggled for their freedom the attempt to repress a majority of its own population backfired on the confederate states of america as the disenfranchised demanded to be counted and considered in the great struggle over slavery emancipation democracy and nationhood that confederate struggle played out in a highly charged international arena the political project of the confederacy was tried by its own people and failed the government was forced to become accountable to women and slaves provoking an astounding transformation of the slaveholders state confederate reckoning is the startling story of this epic political battle in which women and slaves helped to decide the fate of the confederacy and the outcome of the civil war

loyal americans marched off to war in 1861 not to conquer the south but to liberate it so argues elizabeth r varon in *armies of deliverance* a sweeping narrative of the civil war and a bold new interpretation of union and confederate war aims northerners imagined the war as a crusade to deliver the southern masses from slaveholder domination and to bring democracy prosperity and education to the region as the war escalated lincoln and his allies built the case that emancipation would secure military victory and benefit the north and south alike the theme of deliverance was essential in mobilizing a unionist coalition of northerners and anti confederate southerners confederates fighting to establish an independent slaveholding republic were determined to preempt discredit and silence yankee appeals to the southern masses in their quest for political unity confederates relentlessly played up two themes northern barbarity and southern victimization casting the union army as ruthless conquerors confederates argued that the emancipation of blacks was synonymous with the subjugation of the white south interweaving military and social history varon shows that everyday acts on the ground from the flight of slaves to protests against the draft the plundering of civilian homes and civilian defiance of military occupation reverberated at the highest levels of government varon also offers new perspectives on major battles illuminating how soldiers and civilians alike coped with the physical and emotional toll of the war as it grew into a massive humanitarian crisis the union s politics of deliverance helped it to win the war but such appeals failed to convince confederates to accept peace on the victor s terms ultimately sowing the seeds of postwar discord *armies of deliverance* offers innovative insights on the conflict for those steeped in civil war history and novices alike
